

**PYRAMEX**

Perform At Your Peak™

**2017 CATALOGUE**

# Everyone has a job to do.

The construction worker standing five floors high on scaffolding while the sun beats down on their neck. The manufacturer counting down the last minutes of a 12-hour workday. The oil rig worker starting their first day of a three-week shift.

Our accessible and swift customer service represents an understanding that we only grow when you can accomplish your work. Through consistent communication with our distributors, we're taking your needs and developing them into a personalized product line that allows you to perform at your peak.

**PYRAMEX**  
**Perform At Your Peak™**

# Why Pyramex?

**A global market leader in innovation.** With distribution in over 60 countries, Pyramex has become one of the world's leading providers of safety products by delivering innovative and stylish product lines, exceptional attention to customer service, and a mindset that we succeed when you succeed. Before a single Pyramex product leaves our plant, we listen to the needs and observations of our distributors and end users, invest countless hours in research, design, and testing, and work to make sure our products meet the highest industry safety standards. When you place a Pyramex product on your shelves, you can do so with confidence, knowing we stand behind everything we produce.

**A mindset toward others.** As a business owner, nothing is more important to you than the satisfaction and peace of mind of the people you serve – your customers. For more than 25 years, we have cultivated our environment with you and your business in mind. We have become an industry leader by doing things the right way, whether it's taking extra measures to manufacture an exceptional product or double-checking a rush order to a client on the other side of the world. If it's important to your business, it's important to ours.

**A passion for excellence.** We continually seek better methods of delivering product and service. We believe that every time we touch a customer's life, we should provide added value for that customer. Pursuing excellence means we must know our customers, understand their needs and expectations, regularly listen to them, and adjust our processes and procedures to more effectively serve them.

**Serving others.** We value what our customers can teach us. Once you become a Pyramex distributor, our customer service specialists work closely with you to understand your business goals and look for ways we can help you achieve them. Service to our customers comes first.

- No automated answering service – we answer your call directly, so that we can act immediately. Each customer has an assigned in-house rep to serve your business.
- Most orders ship the same day.
- Private labeling programs are available.
- We actively pursue opportunities to bring new business to you.

**Superior products.** Pyramex's products have long been recognized as a market leader when it comes to protection, style, comfort and innovation. Before we introduce a new product, we listen to our distributors and their customers.

- **Safety.** All of our products meet or exceed the highest industry safety standards and are independently tested.
- **Style.** The more stylish a personal protective product looks, the more likely it will be worn.
- **Comfort.** We design products that are maximized in comfort so that the user can wear it all day long.
- **Innovation.** We continually offer products that are unique to the marketplace to insure our customers have a competitive advantage and maintain healthy profit margins. Try on a Pyramex product and you will see and feel the difference.

# Introducing **H2MAX** ANTI-FOG COATING

Pyramex Safety Products is proud to introduce the H2MAX anti-fog coating, available in select safety eyewear.

The innovative technology behind the H2MAX creates a high performing, superior anti-fog coating that is durable enough to withstand repeated cleaning without losing adhesion.

Not only does this premium treatment ensure maximum clarity in the most extreme temperature and humidity conditions, but it also adds a layer to the lens that is abrasion and chemical resistant.

The H2MAX anti-fog coating is made from non-hazardous environmental components and resists scratching from steel wool up to 100g weight.

H2MAX anti-fog coating passes EN standards for K and N, ANSI Z87.1 standards, and Canadian certification CAN/CSA Z94.3.

## Eyewear features

Pyramex has an extensive line of eyewear for a variety of applications. Use the icons below to quickly find some of the most requested features for safety eyewear.

## Eyewear certifications

All Pyramex eyewear products have been independently tested for various standards and certifications.

Use the quick key ( **ANSI** **CE** **CSA** **AS** **BALLISTIC** ) on the following pages to reference product models that meet these standards and certifications.

Use the dots ( ●●●●● ) next to each part number to reference which options meet the standards and certifications.

<b>ANSI</b>	• ANSI Z87.1+ High Impact
<b>CE</b>	• CE EN166
<b>CSA</b>	• Cert. Mod. - CAN/CSA Z94.3 -07 and -15
<b>AS</b>	• AS/NZS 1337
<b>BALLISTIC</b>	• MIL-PRF-32432 High Velocity Impact Standards

## Lens Treatment Technology

### **H2MAX Anti-fog Coating:**

The innovative technology behind the H2MAX creates a high performing, superior anti-fog coating that is durable enough to withstand repeated cleaning without losing adhesion. Not only does this premium treatment ensure maximum clarity in the most extreme temperature and humidity conditions, but it also adds a layer to the lens that is abrasion and chemical resistant. The H2MAX anti-fog coating is made from non-hazardous environmental components. Coating resists scratching from steel wool up to 100g weight. H2MAX passes EN standards for K and N, ANSI Z87.1 standards, and Canadian certification CAN/CSA Z94.3.

### **H2X Anti-fog Coating:**

H2X provides anti-fog, anti-scratch, and anti-static protection. Even after repeated cleanings, H2X will continue to be effective because, the coating is bonded to the lenses. The H2X anti-fog coating is made from non-hazardous environmental components. Coating is waterproof with excellent scratch resistance.

### **Polycarbonate Lenses**

All Pyramex safety eyewear utilize polycarbonate lenses. Polycarbonate lenses are up to 10 times more impact-resistant than plastic or glass lenses and provide 99.9% protection from the sun's harmful UV rays. They are lightweight and include a scratch-resistant coating to prevent surface scratches.

## Lens Colour Technology

Lens Colour	Visible Light Transmitted 380 - 780nm	UVA, UVB Blocked 200 - 380nm	Blue Light Blocked 400 - 700nm	IR Blocked 780 - 2000nm
<b>1.4 IR Filter</b> commonly used for peripheral personnel who are not exposed to direct IR radiation	58%	100%	85%	83%
<b>3.0 IR Filter</b> commonly used around welding sites or for light brazing or cutting	12%	100%	97%	95%
<b>5.0 IR Filter</b> commonly used around welding sites or for medium to heavy cutting and medium to heavy gas welding	2%	100%	99%	99%
<b>Amber</b> commonly used in indoor, low light applications   enhances contrast	89%	99.9%	75%	18%
<b>Blue Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with blue mirror coating   reduces glare	23%	99.9%	77%	48%
<b>Clear</b> general purposes for indoor applications that require impact protection	92%	99.9%	9%	18%
<b>Coffee</b> commonly used in outdoor applications   best for enhancing depth perception	15%	99.9%	96%	35%
<b>Forest Grey</b> commonly used in outdoor applications   provides the least amount of colour distortion	10%	100%	94%	65%
<b>Grey</b> commonly used in outdoor applications   offers protection from excessive glare	23%	99.9%	74%	48%
<b>Polarized Grey</b> commonly used in outdoor applications   contains a special filter that blocks intense reflected light, reducing glare and eye fatigue	11%	100%	90%	18%
<b>Ice Blue Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with a double layer of silver and blue mirror coatings   reduces glare	13%	99.9%	95%	51%
<b>Ice Orange Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with a double layer of silver and orange mirror coatings   reduces glare	10%	99.9%	90%	35%
<b>I/O Mirror</b> commonly used where it is required to move between indoor applications to outdoor applications   clear polycarbonate lens with light gold mirror coating   reduces glare	50%	100%	65%	39%
<b>Infinity Blue</b> commonly used in indoor applications where there is an excessive amount of yellow or sodium vapor light   offers a high level of contrast	71%	99.9%	17%	18%
<b>Multi-Colour Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with layers of silver and red, blue and green mirror coatings	23%	99.9%	84%	40%
<b>Orange</b> offers high contrast and low light image resolution	61%	99.9%	86%	18%
<b>Pink</b> commonly used in low light and flat light conditions   enhances definition and contrast	82%	99.9%	19%	20%
<b>Sandstone Bronze</b> commonly used in outdoor applications   enhances contrast	23%	100%	87%	55%
<b>Silver Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with silver mirror coatings   reduces glare	23%	99.9%	85%	59%
<b>Sky Red Mirror</b> commonly used in outdoor applications   grey polycarbonate lens with a double layer of silver and red mirror coatings   reduces glare	14%	99.9%	91%	64%
<b>Smoke Vermilion</b> commonly used for shooting sporting clays   has a muting effect on green to bluish backgrounds   enhances contrast while reducing all colour equally for optimum colour recognition	23%	100%	86%	48%
<b>Sun Block Bronze</b> commonly used in outdoor applications   blocks the blue light of the spectrum   offers brighter view on cloudy, hazy or foggy days	17%	100%	96%	50%

**DUAL PANE  
LENS**

Dual pane lens provides the ultimate anti-fog performance by isolating the temperature difference inside and outside of the eyewear

The outer polycarbonate lens protects against the environment and provides 99% protection against harmful UV rays, while the inner acetate lens is designed to prevent fogging

The thermal system provides anti-fog protection in the worst weather conditions or extreme-temperature working environments

The outside lens is coated with H2X™ Anti-fog Technology for even more resistance to fogging, due to extreme temperatures

## Hearing certifications

Pyramex hearing products have been independently tested for various standards and certifications.

Use the quick key ( **ANSI CE** ) on the following pages to reference product models that meet these standards and certifications.

Use the dots ( **••** ) next to each part number to reference which options meet the standards and certifications.

**ANSI** • ANSI S.319

**CE** • CE EN - 352:2002

### Earplug Clip

Black plastic clips secure corded earplugs to spectacle and also act as a lanyard

**Part No.**

EPC12

**Heat exhaustion is a serious concern for the tireless worker.**

No matter how hot it gets, you can keep working and stay sharp with Pyramex high performance cooling products.

The heat index, which takes both temperature and humidity into account, is a useful tool to determine when it is too hot for workers. In 2014, 2,630 workers suffered from heat illness and 18 died from heat stroke/related causes on the job. Know the signs of heat exhaustion and heat stroke before they strike.

**If workers are given the proper PPE, heat illnesses & deaths are preventable.**

**C160 Series**
